Mr. van Loben Sels:

The small mine notice was determined complete on August 23, 2005 for permit # S/019/059. The Division has recieved the reclamation surety and the Reclamation Contract. We are currently working out the details with the State Treasurers office for holding the cash bond Earth Energy has provided. Because the above is in place, **you have my e-mail authorization to proceed with your project.** Earth Energy will need to sign one more form required by the State Treasure before the Division can finalize this project. Thank you for working with us on this process.
